# Vaca Valley Union School

Vacaville, California

George Fruehling

School Vlatia Grade 1

Term ending June 8, 1956

Pupil's birth date 2-7-49 Teacher's name Peggy Bickers

This report is an effort to convey to parents an estimate of pupil progress. It was developed as a cooperative enterprise by parents, faculty members and the Board of Trustees of the Vaca Valley Union School District.

A report at best can only give a summary of skills achieved by a pupil. To be effective it should be supplemented by parent and teacher conferences, where all the factors entering into pupil progress can be mutually discussed and understood. The school solicits your assistance in this task.

Robert B. Pokorny
District Superintendent

## COMMENTS

1. George's school work is very satisfactory. P.B.
2. George has been doing good work and has improved very much in the use of his time. He reads very well and understands & recalls what he has read. D. S.
3. George is able to do neat work. Since his illness progress in reading has been slow. Also he seems to feel insecure in the group. During school he seeks attention, and on the playground he appears to be lonely. R. S.
